OTRT CHANGEOUT®

**Curtain Tracking Software
The Solution For Curtain Management
And Regulatory Compliance**
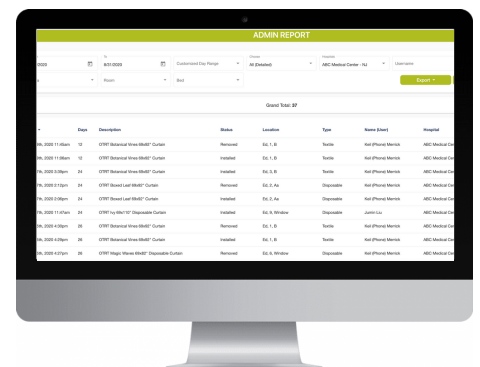

on the right track® *Presents*

Track and Manage:

- **Cubicle Curtain Inventory**
- **Compliance Reporting**

Changeout®* Curtain Tracker Software is cloud-based software that tracks cubicle curtains inventory, provides system management, and creates documentation.

Your EVS and financial team monitor cubicle curtains in real-time by simply accessing the web portal via desktop or mobile.

Changeout® Curtain Tracker software management is registered by On the Right Track Systems, Inc. © 2020

OTRT CHANGEOUT®

on the right track

Cloud-based Application

- Access through iOS, Android, and web browsers.
- Utilize QR code via mobile phones and tablets.
- Validate data and store records in cloud.
- Multi-user system with hospital administration control.

Real-time Monitoring

- Monitor up-to-date curtain status, location, last activity date.
- Identify user installing or taking down curtains.
- Capture the time of installation, cleaning, change outs.

Reporting

- Generate compliance reporting.
- Monitor curtain usability with date range, geo-location, time of use and user.
- Curtain history for quality control management.

Compliance Notification

- Create specific compliance requirement for each area.
- Proactive email notification helps manage compliance and best practices.

Ensure compliance with facility policy
Reduce the risks of Hospital-Acquired Infections
Maintain clean and organized cubicle curtains throughout facility
Contribute to patient and staff safety

OTRT Botanical Vines 69x92" Curtain (part# OPH12B12092G)

Total Change Count: 2

⚙ 07/09/2020 16:54:56   Installed
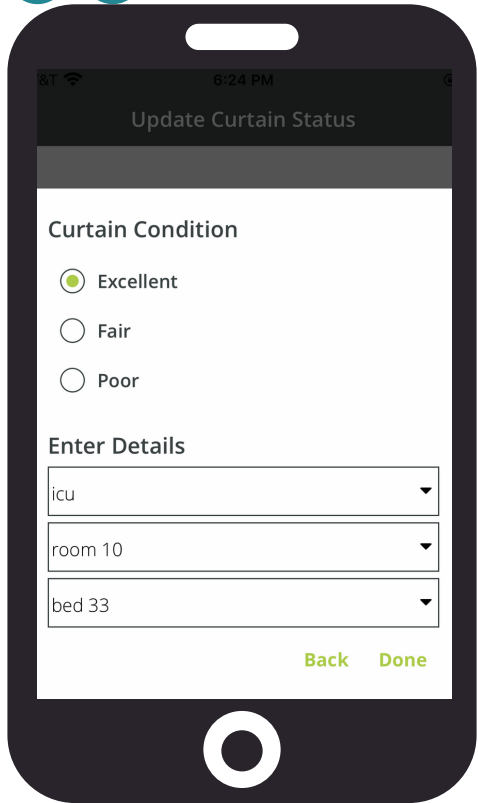

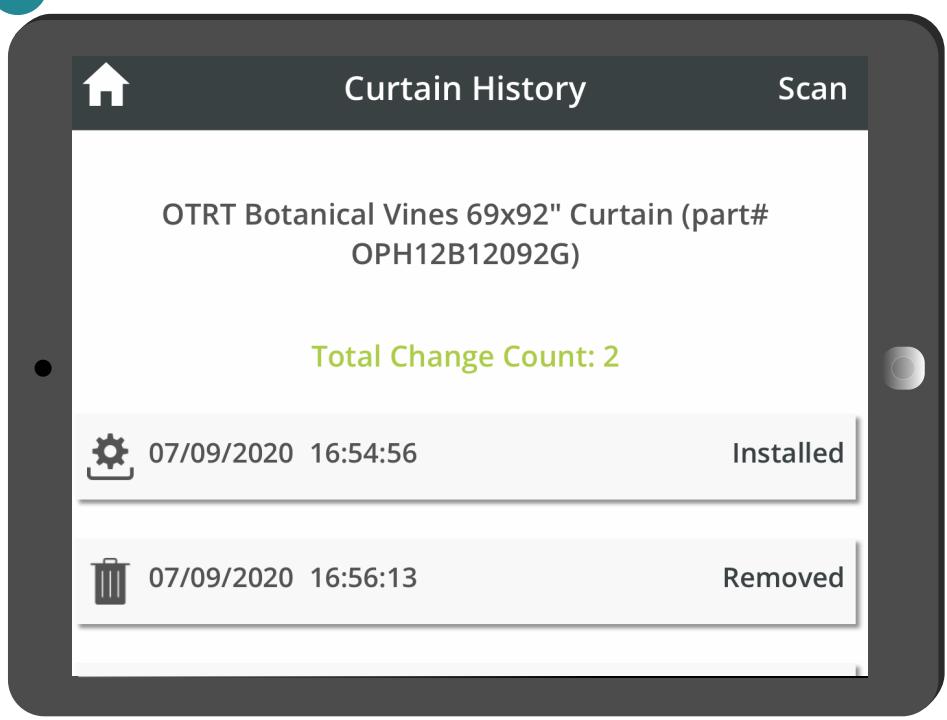

🗑 07/09/2020 16:56:13   Removed

How it works?

Install and open Changeout® Curtain Tracker on your smartphone or tablet

Step 1

'Update Curtain Status', choose to install or take down a curtain.

Step 2

Specify the curtain condition. Enter the location details.

Step 3

Scan the QR code on the curtain. Curtain activity is documented into database.

Multiple curtains can be updated at the same time.

Step 4

Check 'Curtain History' to see the curtain history movements.

Reporting

- **Generate report on web-based portal**
- **Control user access**
- **Standard and custom reporting**
- **Create reminder for management protocols**

Feature functions:

- Date range
- Report type
- Curtain type
- Area/Room/Bed
- Username
- Export to PDF/CSV

USE FILTERS CUSTOMIZING REPORT

Choose to run the report with 'All' or 'Installed/Removed' curtains.

Defining the date range and specific areas allows the team to manage curtains and ensure compliance easily.

NOTIFY YOU WHEN, WHERE, WHICH CURTAIN NEEDS TO BE CHANGED

Changeout® Curtain Tracker allows the admin to set up the compliance day regarding the facility policy in each area. It documents the status, curtain type, change time, location (Area, Room, Bed) of every panel. For panel recorded, system automatically counts the number of the days from the activity date till the present of the day.

Admin will receive Compliance Notification email once the curtain is not compliant with the default setting. Curtain Tracker helps the team to build a clean environment efficiently.
